MAGAZINE PREFACE

Escapisms - we all engage in them to make us dwell into our dreamscape and distant from the gruelling reality of life. The pleasure gained is momentary but the effect absorbed stays with us and makes us yearn them more. With this very concept in mind, PAUSE takes you on a voyage of sorbet dreams, sparkling emotions and the afterglow which remains so during moments of hopelessness. As you fold through, discover art through escapades of mind, body and nature served to you in pixels.

Elysian

Dimple, 21

Yogini, health conscious, ambitious, confident, extravagant in thoughts and action, believes in organic & slow living.

The breaks-into-a-dance-and-then-stretches-to-relax-her-body type of girl.

"I'm all about peace & stability of mind and bodily organs. It took me a long time to get where I am and yoga is the founding principle of it all. My tattoo says, 'cause it's enough to be young and in love'. You can be rest assured that I try to live by it; flamboyant and cheerful, come what may!"

Adi, 20

Sporty, different from the herd, high on intellect,
conversationalist, curious, achiever.

“This very novel has helped me through the toughest of times. Lovesickness is a literal illness, as defined in the novel, and I feel deeply connected with the concept on all mental levels.
“The only regret I will have in dying is if it is not for love” this very quote from the novel will always live with me”.

Deborah, 18

Artistic, elegant, confident, supremely talented, gives off
main character vibes, Lana Del Ray's devotee.

"There's so much that helps but mainly a slice of cake, posing for the camera, acting and dancing, being goofy goes a long way in ensuring I remain my best self. We all have certain emotional baggage but that doesn't define us. In fact, our ability to own them does.

A little insanity is needed on this stupid rollercoaster called life!"

Dharmik, 20

Knowledgeable, sincere,
photography freak, the-guy-
next-door.

"I'm a guy with multiple interests. But when it comes to physical and mental health, nothing beats playing basketball and some good ol' solitude".

Plethora

Serum for skin repair.

The best fruit to protect your cells from damage and produce collagen in the body.

A photograph of a sunset sky with silhouettes of birds flying. The sky transitions from a deep purple at the top to a bright orange near the horizon. Several birds are captured in flight, their dark silhouettes contrasting against the colorful background. In the lower portion of the image, the dark silhouettes of buildings and trees are visible against the horizon.

Let's talk about

Menstruation

Menstruation is a sign of female health and vitality and can no more be shrouded in fear, shame or embarrassment. Breaking the silence around menstruation is essential for women and girls to be able to reach their full potential. It is time to finally abolish the absurd silence and shame that shroud this natural biological event. Menstruation, which is a sign of good health, must be normalised.
